In order to be considered for a hardship withdrawal, the student must have been passing the course at the time that the emergency or other hardship arose and notify his or her instructors or other University officials about the hardship situation as soon as possible after it arose (per University and BOR policy, —passing is defined as a grade of —D or above). Hardship requests that are not filed in a timely manner are subject to denial even if the student was passing and the hardship was legitimate. Students who attend class through the end of a term and complete all course requirements (i.e. final project or exam) are not eligible for hardship withdrawal. If you have taken a final exam, you may not request a hardship withdrawal.
